NOTICE OF AMENDMENT TO TDP REGARDING SECONDARY EXPOSURE CLAIMS WITH EFFECTIVE DATE OF JANUARY 1, 2027

October 12, 2026

PLEASE TAKE NOTICE that the Combustion Engineering 524(g) Asbestos PI Trust (the “CE Trust”), with the consent of the Trust Advisory Committee (“TAC”) and the Future Claimants’ Representative (“FCR”), has adopted the *First Amendment to the Combustion Engineering 524(g) Asbestos PI Trust Second Amended and Restated Asbestos PI Trust Distribution Procedures (Effective January 19, 2017)* (the “First Amendment to TDP”), a copy of which is attached hereto, to amend Section 5.5 of the TDP regarding secondary exposure claims. The First Amendment to TDP will go into effect on January 1, 2027.

1100 North Market Street, Fourth Floor, Wilmington, DE 19890

**Administrative Office:
3000 Town Center, Suite 100, Southfield, MI 48075**

**FIRST AMENDMENT TO THE
COMBUSTION ENGINEERING 524(g) ASBESTOS PI TRUST
SECOND AMENDED AND RESTATED ASBESTOS PI TRUST
DISTRIBUTION PROCEDURES (EFFECTIVE JANUARY 19, 2017)**

THIS FIRST AMENDMENT TO THE COMBUSTION ENGINEERING 524(g) ASBESTOS PI TRUST SECOND AMENDED AND RESTATED ASBESTOS PI TRUST DISTRIBUTION PROCEDURES (effective January 19, 2017) (the “First Amendment”) is made by the Trustees of the Combustion Engineering 524(g) Asbestos PI Trust (the “Asbestos PI Trust”) pursuant to Section 8.1 of the TDP, effective January 1, 2027.

Capitalized terms not otherwise defined herein shall have the meaning ascribed to such terms in the TDP.

RECITALS:

1. The Combustion Engineering 524(g) Asbestos PI Trust Distribution Procedures were adopted in connection with the confirmation of the Combustion Engineering Inc. Plan of Reorganization, as modified through October 7, 2005.

2. The Trustees, with the consent of the Trust Advisory Committee (“TAC”) and the Future Claimants’ Representative (“FCR”), adopted amendments to the Combustion Engineering 524(g) Asbestos PI Trust Distribution Procedures, which amendments became effective July 18, 2007 and November 19, 2008. Thereafter, the Trustees, with the consent of the TAC and the FCR, adopted the First Amended and Restated Asbestos PI Trust Distribution Procedures (effective September 16, 2009). Effective January 19, 2017, the Trustees, with the consent of the TAC and the FCR, adopted the Second Amended and Restated Asbestos PI Trust Distribution Procedures (effective January 19, 2017). The Combustion Engineering 524(g) Asbestos PI Trust Distribution Procedures, as amended, are referred to herein as the TDP.

3. Section 8.1 of the TDP provides that the Trustees of the Asbestos PI Trust may amend, modify, delete, or add to any provisions of the TDP provided the Trustees first obtain the consent of the TAC and the FCR.

4. The Trustees, with the consent of the TAC and the FCR, seek to amend Section 5.5 of the TDP regarding secondary exposure claims.

5. The Asbestos PI Trust will provide notice to claimants of this amendment to Section 5.5 of the TDP.

6. As evidenced by the signatures below, pursuant to Section 8.1 of the TDP, the Trustees, with the consent of the TAC and the FCR, amend Section 5.5 of the TDP as set forth herein.

ADOPTION OF AMENDMENT:

NOW, THEREFORE, the TDP is hereby amended as follows:

Section 5.5 is amended and restated in its entirety as follows:

5.5 Secondary Exposure Claims.

If a claimant alleges an asbestos-related disease resulting from exposure to an occupationally exposed person, such as a family member, the claimant must seek Individual Review of the claim pursuant to Section 5.3(b), *unless* the claim is for Disease Level VIII, Mesothelioma, in which case the claimant may seek either an Expedited Review or Individual Review of their claim.

For all claims, the claimant with secondary exposure must establish that (a) the claimant is suffering from one of the eight Disease Levels described in Section 5.3(b)(3) or an asbestos-related disease otherwise compensable under the TDP; (b) the occupationally exposed person would meet the exposure requirements under the TDP that would have been applicable had the occupationally exposed person filed a direct claim against the Asbestos PI Trust; (c) the claimant's secondary exposure to the occupationally exposed person occurred within the same time frame as the occupationally exposed person's primary exposure; and (d) the claimant's secondary exposure was a cause of the claimed disease.

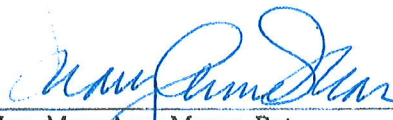

If a claimant alleges an asbestos-related disease other than Mesothelioma (Disease Level VIII), the claimant with secondary exposure must *also* establish that the claimant was exposed to the occupationally exposed person for a total period that is at least five times the exposure durations required for the occupationally exposed person so that the intensity and the duration of the claimant's secondary exposure are sufficient to establish an equivalent level of exposure required under the TDP for an occupationally exposed person with respect to the relevant Disease Level. For Disease Levels II-V and VII, this means the claimant with secondary exposure must establish they were exposed through the occupationally exposed person for at least (i) 30 months of the occupationally exposed person's CE Exposure prior to December 31, 1982; and (ii) 25 years of the occupationally exposed person's general exposure, all 25 years of which much have occurred prior to December 31, 1986.

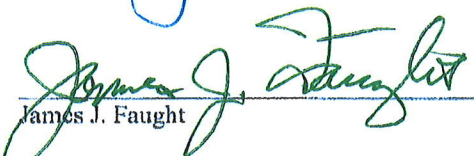

All liquidation and payment rights and requirements/limitations under the TDP shall be applicable to such claims.

IN WITNESS WHEREOF, the Trustees, with the consent of the TAC and the FCR as provided in the Combustion Engineering 524(g) Asbestos PI Trust Agreement, have executed this First Amendment to the TDP effective as of the date first above written. This First Amendment to the TDP may be executed in any number of counterparts, each of which shall constitute an original, and all of which together shall constitute one and the same instrument.
